prashantkhanakar.work@gmail.com

Melbourne, Australia • <https://www.linkedin.com/in/prashant-khadka-91013627b>

Full Stack Developer specializing in building responsive web applications using Node.js, Express, MongoDB, and JavaScript. Skilled in developing RESTful APIs and optimizing user experiences with WordPress and React. Dedicated to delivering scalable, high-quality projects and eager to explore innovative solutions in web development.

Experience

Self-Employed - Full-Stack Developer

2024-02 - Present

Melbourne, Australia

- Developed backend applications using Node.js, Express, and MongoDB for optimal performance.
- Improved backend performance by using Node.js and Redis caching
- Designed and deployed personal projects, demonstrating expertise in both frontend and backend development.

Brain Magic - Web Developer Intern

2025-03 - 2025-06

Saint Albans, Victoria

- Led team of four college students to ensure seamless project delivery.
- Updated BrainMagic.com.au website to enhance functionality and performance using WordPress.
- Collaborated with college supervisor and stakeholders to align project objectives.

Projects

Portfolio

Link: <https://prashant11.com>

Clear Route | Your Online Mortgage Broker

Link: <https://site1.prashant11.com>

- Created a content-driven wordpress site for professional mortgage brokerage firm.
- Built with Elementor
- The site highlights Clear Route's personalized services, expertise, and strategic approach to lending.

ANIMeTOPs | Anime E-commerce Platform

Link: <https://animetops.vercel.app/> | GitHub: <https://github.com/Prasantkhanakar/ANIMeTOPs>

- Built a MERN ecommerce app (React, Node, Mongo) with product catalog, cart, and admin panel.
- Implemented secure auth (httpOnly JWT) and Stripe Checkout with webhook order handling.
- Deployed to Vercel and added proxy/CORS fixes to resolve crossdomain cookie issues.

React Movie App

Link: <https://react-movie-app-tau-taupe.vercel.app/> | GitHub: <https://github.com/Prasantkhanakar/react-movie-app>

- Built a responsive React + Vite movie app with debounced search and TMDB API integration.
- Implemented Appwrite-backed as a service.
- Architected modular components with robust async/error handling.

OAuth2.0-JWT Login

Link: <https://o-auth-jwt.vercel.app> | GitHub: <https://github.com/Prasantkhanakar/OAuth-JWT>

- Built a production-grade, secure auth system using JWTs in HttpOnly cookies protecting against XSS/CSRF attacks.
- Integrated Google OAuth2

- Implemented complete user-auth UX and safeguards: email OTPs and reset flows, short-lived verification tokens, rate-limited auth endpoints.

Skills

HTML, CSS, JavaScript, React, Tailwind CSS, Node.js, Express, MongoDB, Restful APIs, Version Control System, Agile methodologies, Team collaboration, Problem Solving, CI/CD

Education

Master of Information Technology And Systems (Software Engineering), Victorian Institute of Technology
Melbourne, Australia (2023 - 2025)

Certifications

- Node.js, Express, MongoDB & More: The Complete Bootcamp – Udemy
